The theme of the convention was the "Art of Home Making," the ultimate end of the club work being world peace.

The two addresses by Professor Paul F. Cadman, "Am I My Brother's Keeper?" and "The Dawes Plan" were greatly appreciated.

Dr. Tully C. Knowles gave an interesting address on "Is the Home Losing its Impact?" while Mrs. Katherine Smith gave a talk on the "San Francisco Women's Home."

Co-Operation of Bay Cities To Be Urged at Oakland Dinner

Necessity for co-operation among cities of the Eastbay will be stressed by speakers, contacts and a program played at Oakland's second annual community dinner this evening at 6:30 o'clock in the Municipal auditorium.

The dinner, which is being held under the auspices of the Oakland Community Council, is expected to be the largest affair of its kind ever held. Last year's Oakland broke all known records for such a dinner and already reservations for this year's dinner have passed the previous record. Fully 200 persons are expected to fill the auditorium to capacity, according to Fred M. Moreau, chairman of the dinner committee.

One of the features of the dinner will be a three-minute speaking contest by representatives of various Eastbay cities. "How Can We Co-operate for a Greater Development of the Eastbay?" will be the subject. A silver loving cup will be presented to the winner.

ROWELL TO SPEAK

Speakers who have been selected to represent their respective cities in the speaking contest are: Berkeley, Raymond C. Stutes; Alameda, Harold Miller; Oakland, Fred E. Reed; Richmond, Wilbur S. Pierce; Hayward, W. Burke; San Leandro, Wilbur S. Pierce.

Chester H. Rowell, former newspaper executive and recent of the University of California, who is to deliver the principal address, will limit his talk to thirty minutes, according to Community Council officials. Brief addresses will also be delivered by H. C. Capwell and Charles H. Secombe.

The main entertainment feature of the dinner is a pageant play, depicting the growth and development of Oakland and the Eastbay. Special scenery, beautiful costumes and realistic dancing numbers presented by a group of Alameda girls will mark this performance. The Mills College girls taking part are Anna Craig, Harriet Schneider, Marie Laffey, Gertrude Gorn and Sarah Farrell.

Mrs. Fannie Bailey Scott, Berkeley will sing a number of songs, while Rosebrook and his band will provide music during the dinner.

OTHER PREPARING MEAT

Others who will play an important part this evening, according to the caterer, are 2500 fried chicken, six 1-2-ton trays, loads of knives and forks, plates, cups and saucers, 4700 pounds of lettuce and several hundred pounds of potatoes. Forty men and women will be kept busy tonight preparing the meal.

The plant will employ 75 people, chiefly women to begin with, reaching an ultimate capacity of 200 employees in a short while. Golf balls and sporting goods will be manufactured, as will flat leather goods.

Mr. Bevins is of Revolutionary war stock, and also is a veteran of the late war. "Home Builders are the factors in the growth of a city," said Mr. Bevins, "and I believe everything possible should be done to those in authority to induce this class of people to come to Richmond and make this city their future home."

KILLER TIP STIRS POLICE

DREDGING PLANS ACCEPTED, BIDS ASKED; WHARF SPECIFICATIONS ORDERED BY RICHMOND COUNCIL

**BIDS CALLING FOR ACTUAL WORK ON INNER HARBOR TO BE
OPENED MAY 25; SMITH TO PREPARE
WHARF PLANS**

Enabled to take definite action on the improvement of the inner harbor by a letter of agreement on streets dedication from the Ellis Landing and Drydock company, the Richmond city council last night ordered the following work on the inner harbor:

Plans and specifications for dredging for the site of Municipal Wharf No. 2, were ordered; the plans had already been prepared by City Engineer Ed A. Reiman and were presented to the council and accepted.

A resolution calling for bids on the dredging was adopted, the bids to be opened three weeks from last night, or on the meeting night of May 25.

City Manager A. J. McVittie was directed to apply to the War Department of the United States government for permission to dredge for the site of the wharf, the application to be made today. The government has already stated its willingness to comply with the request.

Francis Bell "Drydock" Smith, head of a well known firm of marine engineers, was instructed to prepare plans and specifications for the construction of the wharf, itself, these plans to be submitted to the council as soon as ready, previous next meeting night.

Following is the letter on which the above action was based:
To the Honorable City Council,
City of Richmond, California.
Dear Sirs:

We are instructed by our client, The Ellis Landing and Dock Company, to inform you that it has been at all times in the past and is now willing to cooperate with you and the citizens of Richmond in the immediate development of Richmond's inner harbor and the construction of wharf No. 2.

A letter was received last Saturday from your City Attorney, asking permission to deposit material dredged from the Government channel in the inner harbor upon the land of The Ellis Landing and Dock Company. This is satisfactory for the purposes of a regular military routine by Major Ivan Hill, cadet commandant, and a regular army sergeant. However, these drafts were not reported to be of such weight as to impair the serenity of the neighborhood.

We are authorized to advise you that The Ellis Landing and Dock Company is willing to dedicate Tenth street and Dock street, west of Tenth street, in accordance with and as said streets, appear on maps of Ellis Landing Subdivision of record, said dedication to be for pedestrian, vehicular and street car purposes only. Questions of time and type of pavement for said streets and method of payment therefor are to be determined by agreement to be drawn.

We are further authorized to assure you that a right of way will be granted over Eighth street and Ninth street in Ellis Landing Subdivision for the purposes of a railroad as soon as wharf No. 2 is completed and a railroad company is ready to commence construction of the railroad. It must be understood, however, that the exact line of the right of way desired must first be mapped out on the plat of Ellis Landing Subdivision, and that any property required for the right of way, other than over streets as shown on said plat, must, of course, be paid for; formal granting of right of way to contain the customary provisions and to be subject to our approval.

There are other matters to be considered in connection with the foregoing, such as dredging part of Ellis Canal which, as you know, has filled in from the city's outlet, and establishment of pierhead and bulkhead lines conforming to the maps of Ellis Landing Subdivision on file.

We are confident that no difficulties will be encountered in reaching a mutually satisfactory agreement on all of these points.

Very truly yours,
JOHN J. GOLDBERG

Considerable cheerfulness was shown by several members of the council, when the resolution adopted by the Richmond President's Round Table, denouncing delay on ordering harbor work was read. Council members Black and Osborn, moved that the communication be received and placed on file, and after some discussion the motion was carried.

Black stipulated in his motion that

Plain Speaking to Be Done at Chamber Dinner on Friday Night

Why doesn't Richmond get the new factories that have been coming to the Eastbay region? Many impatient men ask this question of each other. There's a reason and it will be told at the membership meeting of the Richmond Chamber of Commerce to be held Friday evening, May 8, at 6:30 o'clock in the First Christian Church, corner Sixth street and Bissell avenue.

The time has come for some plain speaking about the things which handicap the City of Richmond and which make it so hard for the small group of public spirited citizens who are working to make Richmond a bigger and greater city.

There will be some plain speaking at this meeting and dinner and reservations should be made at once to the Chamber of Commerce. No citizen of Richmond should miss this meeting, but reservations are limited of necessity, to 150 plates.

Hon. John W. N. Schultz, United States government engineer, in charge of Richmond harbor development, will be present and will speak. Hon. Albert E. Carter, member of Congress, will also speak, and his subject will be "The Richmond Harbor and Its Importance to the City."

Sewer And Street Work At El Cerrito

A petition requesting installation of sewer in Pomona avenue was laid over for one week by the El Cerrito board of trustees last night, and the board was instructed to meet with the State sanitary board Thursday night at the El Cerrito city hall to discuss the new sewer proposition.

Petitions asking that portions of Eureka and Norwell streets be paved were referred to City Engineer Ross L. Cadlee, with instructions to prepare plans and specifications.

Street superintendent Forrest Wright was instructed to have the shaker signal at the corner of Cutting and San Pablo avenues repaired.

The ordinance providing for the licensing of peddlars was laid over for one week.

Building Permits Issued Yesterday

Building Inspector E. E. Grow issued building permits yesterday to The Western Home Builders to erect a private garage on Wood-Hill street, between Twenty-eighth and Twenty-ninth streets at a cost of \$2000 and to S. Diaz to renew the foundation and make an addition to his residence on Second street, between Bissell and Macdonald avenues, with A. Gray doing the work which will cost \$100.

Purchase of Pullman Playground by City

The park and playground committee of the city council last night recommended that the sum of \$175 should be paid to Mrs. Ida Beal for lots 25 and 26 in the Pullman playground. The recommendation was presented by the council member, the receipt of the deed to the property. These lots complete the transfer to the city of the Pullman Recreation center.

McBRIDE PAVING MATTER

The matter of paving McBryde avenue, between Twenty-ninth and Pablo avenues, was laid over one week for further consideration by the city council last night. The city is endeavoring to have the street paved with permanent material and it would be a direct outlet to Alvarado park.

SANTA FE MEN OPPOSE MOTOR COACH COMPANY

**City Council Asked to Reverse
Itself on Its Endorsement Of
Sierra Bus Line**

MERCHANTS SIGN PETITIONS

**Surprise Is Sprung by Merchants
Who Have Apparently Chang-
ed Former Attitude**

Threats that the Santa Fe railroad company would remove three of its passenger trains, cutting off three train crews and eight engine crews, causing a number of employees to leave Richmond and seek homes and livelihoods farther down the valley, and costing this city a sum ranging from \$12,000 to \$11,000 a year, if the franchise is granted to the San Francisco-Sierra Motor Coach company to operate through Richmond, were made by a group of employees of the railroad company at the meeting of the city council last night.

No opposition was voiced by any other business line except the San Francisco-Sierra Motor Coach company, although it was pointed out by Judge D. J. Hall and others that the Yuba county franchise would serve the same territory with an approach from new lines and that several other bus lines have asked for a similar franchise. The only difference is that the one opposed would come through Richmond, while others would not.

Opposition of the employees, who do not represent the Santa Fe railroad company in any way, was based on the fact apparently, that the San Francisco-Sierra line would come through Richmond, while the others would be routed through Oakland and Alameda county. If it stood, a conductor, presented two petitions, one signed by employees of the railroad and the other signed by Richmond merchants protesting against the granting of the franchise to the San Francisco-Sierra Motor Coach company. He said that it probably was the case that the railroad to San Francisco and would mean a direct route to the railroad. In support of Standard were T. J. McGinty and Mr. Galbraith.

City Attorney D. J. Hall said that several other motor bus companies are located in the same neighborhood and that would be a direct route to the railroad. The hearing will be resumed before the state railroad commission in San Francisco tomorrow morning, and Hall said that he would bring a direct route to the railroad. He said that he would bring a direct route to the railroad.

The petitioners requested the city council to withdraw its support of the Sierra Motor Coach line and to stand back of them in opposing it. Commanding Harriet, of this puts the council in a dilemma, and in view of the facts that several merchants who had endorsed the San Francisco-Sierra Motor Coach company in a resolution passed last week by the Merchants' association, and now signed the petition opposing it. Harriet asked that the council lay the matter over one week and as a body investigate the question.

This motion was carried, and an amendment made by Councilman Scott was adopted requesting the state railroad commission to delay any decision on the application until after the council has made its investigation. Some surprise was expressed by council members that merchants who had previously endorsed the application of the Motor Coach line had now signed the petition opposing it. This was the moving factor in bringing the investigation.

Stockton votes 12 to 1 for \$3,000,000 bond issue to construct deep water channel to San Francisco bay.

Work Wearing You Out?

Richmond Folks Find a Bad Back a Heavy Handicap.

Is your work wearing you out? Are you tortured with throbbing back aches—feet tired, weak and discouraged? Then look to your kidneys! Many occupations tend to weaken the kidneys. Constant backache, headaches, dizziness and rheumatic pains are the result. You suffer annoying bladder irregularities, feel nervous, irritable and worn out. Don't wait! Use Doan's Pills—a stimulant diuretic to the kidneys. Workers everywhere recommend Doan's. Here's a Richmond case:

Mrs. Geo. Schiltz, 1322 Bissell Ave., says: "Hard work affected my kidneys and caused lame back. When I washed, I had cutting pains through my kidneys, I felt tired all the time and could hardly do my housework. My kidneys didn't act right and my feet swelled badly. I used Doan's Pills and they gave me relief."

Over three years later, Mrs. Schiltz said: "Doan's have never failed to relieve me when my kidneys have troubled me."

Mrs. Schiltz is only one of many Richmond people who have gratefully endorsed Doan's Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S PILLS, the same that Mrs. Schiltz had—the remedy backed by home testimony. 60 cents at all dealers. Actors Are Battle Scarred Following Making Big Movie

After finishing the Vitagraph production, "Flower of the North" which will be shown at the Wesley Methodist church, corner Ninth and Ninth avenue, Friday evening at 7:15, the actors returned from the mountains of northern Oregon tanned and weather beaten.

The production is based on James Oliver Curwood's famous story of the same name, and is a splendid example of the combination of the great factors necessary to a successful motion picture play: a capable cast headed by distinguished stars; a gripping, worthwhile story by a world famous author and a skilful, experienced director. The superbly excellent cast is headed by Henry B. Walthall, who was the hero in "The Birth of a Nation," and who has since headed his own company, and Pauline Starke, whose work in "The Courage of Marge O'Doone," another Vitagraph production by Mr. Curwood, "Salvation Nell," and other big productions, gained her wide recognition and immense popularity.

James Oliver Curwood has a world wide fame for his virile stories of the great Canadian Northwest and his long for the land "North of 36" which Kipling has done of India. The director is David Smith, who directed "The Courage of Marge O'Doone," and "Black Beauty" for Vitagraph, one of the foremost motion picture directors in the country.

DISTRICT WILL

(Continued from page one)

two or three of the commissioners could attend.

Leon Gray, Oakland city attorney, said that all of the arguments presented by the water company in favor of the application at the hearing a month ago have been reviewed and a complete rebuttal prepared.

WATER LAW EXPERT

Edward F. Trenchard, a leading authority on water law in California, has been retained by the directors of the district to take charge of the case in conjunction with William J. Locke, attorney for the district. In addition, the district will be represented by the attorneys of the various cities of which the district is composed.

Public sentiment in opposition to the Mallard slough project of the water company has not abated since the wave of indignation first went the community when it was announced, according to Roscoe D. Jones, chairman of the water committee of the Oakland Chamber of Commerce. During the past month a number of mass meetings have been held in the various communities of the East Bay, and the sentiment has been found to be decidedly against the Mallard slough project, he said.

Most of the community organizations which have adopted resolutions condemning the lower Sacramento river course have designated representatives to attend the hearing to-day.

In an address yesterday before the Berkeley Realty Board, Dr. George C. Pardee, president of the East Bay Municipal Utility district, said he believed the water company's Mallard slough project was merely a device intended to defeat the people's device-time project.

WOULD INCREASE VALUE

"Don't forget this," he said, "the water company is permitted to spend \$5,000,000 to bring in the lower Sacramento, the value of the company's plant will probably be increased so much that the district cannot, or will not, buy it. I am one of those who wonder whether that is not just what the company has in mind, hoping thereby to kill off public ownership and perpetuate its monopoly. But my answer to that is, if for any reason, the district does not acquire the company's distributing system, then I have no doubt, the people of the district will insist on putting in their own distributing system for the uncontaminated Mokelumne."

Flush the Kidneys Before Breakfast

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

Educating Princess By Modern Methods

STOCKHOLM, May 2. What should be the training of a modern princess?

In Sweden the young girls of the royal family are educated very much like the daughters of the well-to-do classes and are even taught arts that are useful. Princess Astrid, a niece of King Gustaf and soon 20 years old, is now taking a course of training as a nurse at an orphanage, while Princess Ingrid, who is 15 and the king's only grand daughter, follows a regular high school course in the royal castle. As there are no more young children in the family, the nursery apartment in the wing occupied by the crown prince has been converted into a school, where the regular course of instruction of one of Stockholm's best schools for girls is followed by the princess and seven playmates from outside homes.

Crown Prince Gustaf Adolphus, whose first wife was a daughter of the English Duke of Connaught, has taken personal charge of the education of his children, particularly since he became a widower in 1920, and he has always insisted that they should have thoroughgoing Swedish education, like those of any other children. The boys have been sent to preparatory school in the provincial districts, and the oldest is now a student at the University of Upsala, where his father, grandfather and great-grandfather were also trained.

The only daughter, however, he has kept at home, but instead of having private tutors, he has had arranged for her a regular school with teachers and playmates in the castle. Her favorite subject is history, and though she has not yet reached English in the regular course of training, she knows that language perfectly, having learnt it from her mother, whom she greatly resembles. Occasionally she visits her grandfather in England, in which she takes special delight.

Outside of her regular school work she gets two music lessons a week. She is not much interested in sewing, but does help with the embroidery of an antependium or altar drape intended for the Swedish church in Oslo, Norway, named in honor of her mother. With her brothers, she has learned to ride horseback, skate, play tennis, and use skis. At the summer residence of the crown prince, "Sofiero," in Southern Sweden she has a play house, where she used to play with dolls, but where she takes her greatest delight in dressing up for private theatricals. Later on she will probably take some definite course in professional training.

Her cousin, Princess Astrid, who is five years older, has to do all the work of a regular orphanage training course, such as washing, ironing, attendance in the diet kitchen and night duty. Like the other pupils, she also has a special ward to care for, a four-month-old girl baby, who is bathed and dressed and fed by the royal nurse. Being strong and lively the princess does the work with vim and joy.

BRIDGE COMPANY IMPROVES LAND ON HARBOR HERE

The work of leveling the fill of the first twenty acres on the Richmond harbor to be reclaimed will be started this week by the San Francisco Bridge company. The work of filling and development of the harbor has progressed very rapidly and the filling project is being started much sooner than previously anticipated.

Tractor-mounted scrapers will start within the week on the "Marina" a sea-level runway that is used for pulling heavy equipment up on the land for repairs by means of electrical power.

The buildings to be used by the company will be started as soon as the land is leveled. One 52 by 78 foot warehouse will be built as well as a 61 by 122 foot structure. There will also be a wharf 200 feet long and 800 feet of piles for mooring, together with an office building and a residence for the superintendent.

Water will be brought in by means of a submerged pipe across the harbor from the location of wharf No. 2, according to present plans.

The improvement given the inner harbor by such firms as the San Francisco Bridge company, has brought about negotiations, which may result in the location of other enterprises here, so the influence of the bridge company is already being felt.

Provided proper rail connections can be made, one steamship company and an extensive lumber company will likely locate here.

Fred Merkle Dies At Alameda Home

Fred Merkle, 73, who resided in Richmond until he moved to Alameda two years ago, died at his home Sunday. Merkle came to Richmond as an employee of the Standard Oil company when the plant was started and was widely and favorably known among the employees here. He was pensioned two years ago after long service as a fireman and later a watchman. His death will be mourned by many in this city.

A requiem high mass for the repose of his soul will be celebrated at St. Joseph's church in Alameda today. Remains are at the funeral parlors of George H. Hagy, Webster street and Haight avenue, Alameda. Deceased leaves no immediate relatives, having no children and his wife, Catherine Merkle, having died a few years ago.

ATTENTION:
Ladies' night, May 6, Contra Costa Enchantment, No. 99, I. O. O. F. will have a social and program consisting of singing and speeches, after which there will be a dance. All members of the order and the Rebekahs and their families are cordially invited to attend. By order of the committee, C. E. Washburn, chairman.

Notice is given to all members of the encampment that lodge will take up at 7 p. m. Wednesday night.

BURGLAR AGAIN WORKS
The burglar, who is believed to have operated in Richmond for some time, again plied his "trade" according to police reports. By means of cutting a small hole in the window glass and unfastening the latch from the inside, a burglar entered the home of B. H. Seimon, 469 Nevins avenue and removed a raincoat and a child's bank, together with its contents, consisting of 15 cents.

DREDGING PLANS

Continued from Page 1

ail had been done that could be done in furthering harbor improvements. Councilman Garrard was of the opinion that the Round Table had been badly misinformed and declared that the council had not broken faith with the United States government. He said that nobody had any official information about the additional allotment of \$138,000 for further dredging on the inner channel and he thought the Round Table resolution was unfair to the city council.

City Clerk Faris announced that the secretary and the president of the Lions club are not members of the Round Table and are not represented by it. Councilman Lane believed the Round Table had been wrongly informed and said that the inner channel had not been available until last year, while on the other hand the council had been endeavoring for several years to get a street right of way to the inner harbor. He resented the lack of good faith charged and as for the thousands reported lost to the city by harbor improvement delays, said he would like to be shown one industry that had been lost.

Manager McVittie said the city had made only one agreement with the government, and that was to provide dollar for dollar for dredging. No other agreement had been made, he said, and this one had been kept. He said there was no lack of faith and that it was only a year and a half ago that the turn had been widened so that ships could get into the inner harbor.

Councilman Hartnett said that until the agreement with the Ellis Land-

ing Company was received last night there was no possibility of getting to the wharf if it had been built. Mrs. Osborn said building a wharf and then going to law for a street into it was the last possible thing to be considered, and Mrs. Chandler said that hardly a meeting had passed since she had been a member of the council that harbor improvements have not been discussed. All within the power of the council had been done, she believed.

Councilmen Scholes and Scott made no comment.

Feeling that the City of Richmond is discriminated against in that steamers using the Richmond wharf are compelled to pay for customs inspection, instead of having the fee paid out of government funds allotted to the Port of San Francisco, the city council last night decided to take the matter up with Congressman Charles F. Curry for arrangements to have the expenses born by the Port of San Francisco, until such time as Richmond becomes a part of its own port district.

This action was taken at the request of Harbor Master Jackson H. Misner, who pointed out that Richmond is practically a part of the Port of San Francisco and that customs inspection charges should not be assessed against ships using the local port. Such charges are unjust, he stated.

This Is Kroehler Week

at our store, and from April 11 to May 11 is Kroehler Month of the United States. The Kroehler manufacturers are telling the story nationally of why their furniture is best.

They sold in 1924 over 16 million dollars worth of overstuffed furniture, their nearest competitor selling 6 million. When the public sets such a stamp of approval on any article there are very good reasons. See our playlet in the window on Macdonald avenue and learn some of the reasons.
